Data Center Connect

Evolved Data Center Connectivity

The shift to decentralized workloads spanning data centers and cloud services demands flexible, reliable, and secure high performance connectivity. Traditional carriers fall short of meeting today's data center connectivity agility and efficiency requirements. Massive Networks' Data Center Connect provides a simple solution to your evolving needs, offering a single carrier approach with reliable high-performance connectivity.

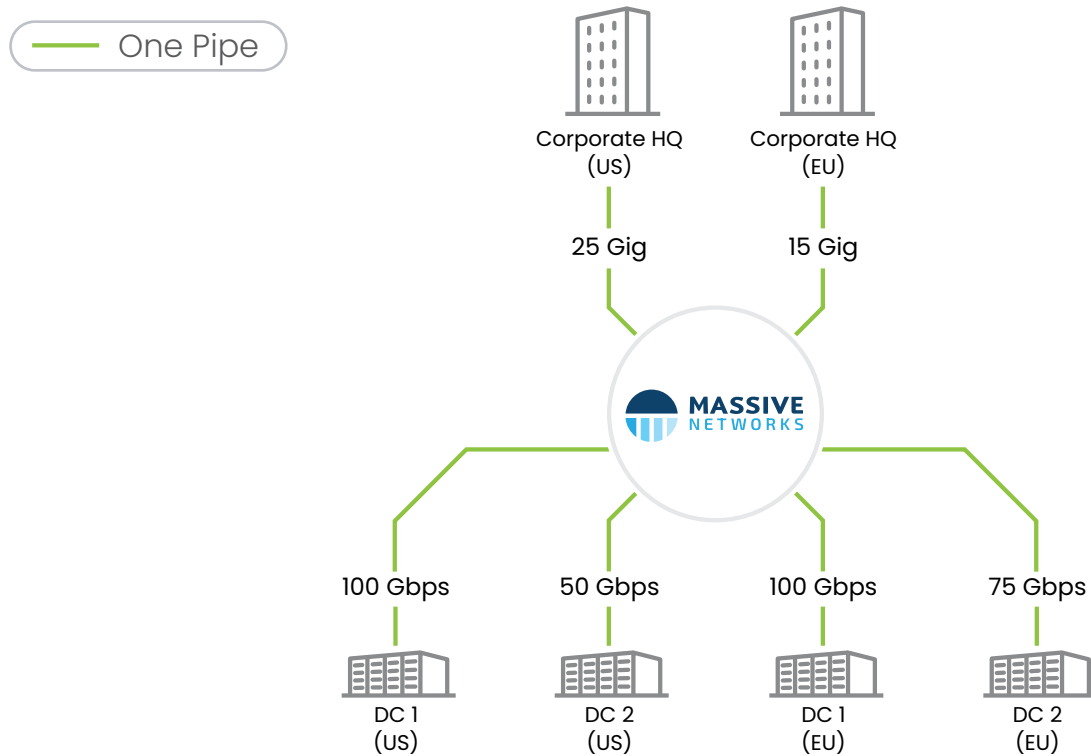

Traditional Carrier Challenges

Traditional carrier services are limited in flexibility and customization options. They're also entrenched with hidden costs. These challenges force customers to juggle multiple carriers for comprehensive global connectivity solutions, leading to complex management and billing with fragmented support.

One Pipe Multi-Connect®: Data Center Connect

Reliable, Secure, and Simple Data Center Connectivity

Massive Networks' One Pipe backbone network provides direct Layer 2 peering at configurable bandwidth from offices to data centers

Massive Networks' Data Center Connect provides seamless connectivity to over **60 million** fiber-lit buildings worldwide

Agile Data Center Connectivity

Massive Networks' Data Center Connect provides seamless connectivity to over 60 million fiber-lit buildings worldwide, including regional PoPs, colocations, major MSPs, and office buildings across the globe. It supports direct connections to public clouds using Cloud Connect and simple,

reliable, high-performance hybrid and multi-cloud architectures. Data Center Connect simplifies your connectivity, providing reliability, security, and simplicity.

The Massive Advantage:

Last Mile Simplicity

Unified carrier solution for over 60 million fiber-lit locations in 58+ countries.

Incredible Flexibility

Interconnect all of your physical locations and SaaS providers with ease.

High-Speed Connectivity

Network speeds ranging from 10 Mbps to 400 Gbps.

Enhanced Security

Private circuits reduce your attack surface while enhancing performance.

Simplified Operations

Reduce carrier complexity with one carrier delivering end-to-end operational simplicity.

Complete Support

24/7/365 US-based managed NOC for continuous assistance.

Multi-Connect Suite of Solutions

Data Center Connect is part of the Multi-Connect suite of solutions, that redefine carrier services. Data Center Connect, alongside **Office-to-Office Connect®**, **Cloud Connect**, and **Premium Blended Internet**, are all delivered via **One Pipe Multi-Connect®**. This provides you with an agile

and secure network designed with the simplicity and efficiency that only a single global carrier can offer. With Massive Networks, you will confidently embrace the distributed workforce model, knowing that their office connectivity is built for both the challenges of today and the innovations of tomorrow.
